INTERNS

MIT • CERTIFIED MASTER MEDICAL INTUITIVE

December 14th, 2017

Dear interns,

NOTE: Schedule dates have changed

INVESTIGATIVE ABILITY OF THE HUMAN ÆTHERIC ENERGY CONDITION

The SOAR "MIT" Certification Credential is the designation for our unique investigative ability of the human Ætheric energy condition. This is a canonical TRUE ABILITY to better perform the ubiquitous, albeit incautious, practice of Medical Intuition.

After careful consideration, christian|TOREN has **added** this enhanced Training Program to its successful SOAR Master Clairvoyant Series training. It can be stand-alone from the Clairvoyant series, or it can be done in combination, though to be clear there is a different end, aim and/or focus.

The premier offering is the newly instituted "**MIT**" [*Master Intuitive training series*](#). More than any conventional approach to Medical Intuition, the SOAR MIT program uses a TRUE ABILITY.

This ability necessitates the use of an [authentic vision] to ascertain the actual past, present and future condition of the human body, one which supports correct insight to diagnosis. Although this program will take advantage of the conventional use of Astral energy – as taught in the clairvoyant series – authentic vision as it pertains to Medical Intuition requires an additional ability, the aptitude to see the entirety of the human condition through its expression in Ætheric Energy. This

goes far and above any conventional approach to the field, because it produces accurate results.

Authentic vision as used in the SOAR MIT program is a homogenous and judicious blending of energy sensing. To achieve this, there are three (3) parts to the MIT program which have similarities to the SOAR Master Clairvoyant program, but it is not identical, nor is there the same end, or focus.

For example, the MIT program will develop a form of Psychic development, as this will allow for an almost instantaneous indication of the KEY underlying problem the body itself is trying to heal; however, a proprietary technique must be introduced to produce that instantaneous result.

Also, a part is taken from the Clairvoyant program as it will be necessary to ascertain the bodies break-down since childhood (the ability to see across time.) To ascertain the pre-disposition to break-down according to a built-in DEFAULT destiny, a determination using clairvoyant Astral abilities is necessary so the practitioner can quickly ascertain MANY conditions and symptoms and conditions that have been occurring throughout life. In addition to allowing the practitioner to address EVERY problem condition in the body in addition to the current break-down, this snippet from clairvoyance allows the practitioner to [insert] or interject a corrective programming to the default destined health breakdown. This is the “miracle” of TRUE Medical Intuition.

The subsequent collective remedy the practitioner provides interferes with the predisposed sequence of tumbling dominoes - deliberately, and can result in decades more healthy life and symptomless ageing. It provides insight and suggested remedies that can be conveyed to one’s conventional doctor to better address all known conditions, newly ascertained conditions, and health pre-dispositions – RIGHT NOW.

This is serious work for the serious practitioner. This IS NOT an ability that has been written about in any of the Ancient Wisdom works – or so far, it has never been discovered. Dr. Christian is also a recognized ***Master Claircognizant***, and this high ability has served him well over the decades to glean the remiss or missing information from the ancient writings.

INVESTIGATIVE ABILITY OF THE HUMAN ÆTHERIC ENERGY CONDITION

Dr. Christian is a vastly recognized and highly acknowledged TRUE Medical Intuitive. He has worked tirelessly to find a way to package the wisdom and technique he has developed over decades into a form that can be used to teach others this greatest ability in the psychic realm. He has personally provided diagnostic insight in Readings for MANY THOUSANDS of Doctors, medical professionals, and those specialized in the areas of psychiatry and psychology. NONE have ever taken difference to Dr. Christian's determinations, and in fact, some have even accompanied patients they have brought to see Christian.

The "gift" (Christian only uses this self-ascribed ability because it is not technically defined in any ancient writing) is in danger of being lost – hopefully you can use your determination, commitment, abilities and youth to keep this ability alive, and to even take it to higher levels.

CONTACT US if you are interested in our 2018 3-part MIT Medical Intuition program. It will be delivered in Jan, Mar and May of 2018, with each part being delivered on a Sunday. (This allows it to also coincide with an ongoing SOAR Master Clairvoyant Series, which occurs on Saturdays.)
